CBe-Learn – Calgary, Canada

February 2022 - June 2023

- High School Diploma

Skills

Programming Languages: Python, Java, JavaScript, HTML, CSS, React.js, Tailwind CSS, Bash, SQL

Development Tools: IntelliJ, Visual Studio Code, NetBeans, Brackets, Git

Projects

Personal Portfolio Website

- Built a personalised website with React.js to showcase my projects, skills, level of education, and experience.
- Utilised Tailwind CSS in order to rapidly style a modern and well-organised website.
- Demonstrates my skills in web development and UI/UX design.
- Showcases personal growth through updates to the portfolio, reflecting new projects and skills.
- Implemented a user-friendly navbar for easy navigation to the different sections of the website.

School Cafeteria Management System

- Collaborated in a team environment to develop the back-end for a Java-based electronic catalog system.
- Created a menu for students to browse menus, check prices, and submit new item requests.
- Developed a menu for administrative staff to view, update menu items, and view students' requests.
- Applied object-oriented programming principles to ensure organised code.

Responsive Gym Website

- Developed a dynamic website using HTML, CSS, and JavaScript.
- Implemented modern design principles and ensured seamless user experience across all devices.
- Created interactive features including membership registration as well as contact and feedback forms.
- Implemented form validation and responsive navigation menu for improved user interaction.
- Optimised website performance through efficient code organisation.

Experience

Receptionist, ADC Ultrasound and X-Ray – Calgary, Canada

September 2022 – February 2023

- Coordinated and scheduled patient appointments with high attention to detail.
- Quickly and efficiently learnt to use Velox Software Suite to store and update patient data.
- Supported technical staff by assisting with equipment management and disinfection procedures.
- Collaborated effectively in a fast-paced medical environment with multiple team members.
- Maintained patient confidentiality while handling sensitive medical information.
